CHICAGO, Sept. 12.-The wheat market pened rather weak in response to the excellent harvesting weather in the Northwest. Opening quotations on Deember were unchanged to he lower at 83%c to 83%c A bearish effect through-out the entire session was the liberal movement of new wheat in the North-

movement of new wheat in the Northwest.

While local receipts were small, the inspection sheet showing only fifty-two cars as against 257 a year ago, arrivals today at Minneapolls and Duluth were 730 cars, compared with 414 cars last year.

The weather bureau report furnished some encouragement to bulls, the statistics showing the threshing reports from North Dakota indicated smaller yields than have been generally expected.

Pit traders and commission houses were moderate sellers of wheat here during the entire session. A prominent bull was a leading buyer. In view of this support smaller traders were not inclined to make any large sales and in consequence the volume of trading was small.

Prices throughout the session ranged within narrow bounds. December selling between 834,6834c and 834c. The market closed barely steady, with December practically unchanged at 834,6834c.

Sentiment in the corn pit was a triffe bearlsh. December closed unchanged from yesterday at 434,6434c.

Gats were firm. December closed about unchanged at 724,6674c.

yesterday at 43%043%c.
Oats were firm December closed about unchanged at 27%05%.
Provisions were steady as a result of a considerable decrease of receipts of live hogs Trading was very quiet. At the close January pork was off 2%c, lard was up 2%c and ribs were unchanged.

# NO CHANGE IN PRICE OF GRAIN

Weekly Meeting of Grain Merchants Not Held Tuesday as Usual.

IN FRUIT MARKET PRICES ARE DROPPING

Grapes Are Here in Abundance, a Carload Being Received Yesterday.

On account of the rush of business just now experienced by hay and grain merchants, they were unable to hold their issual meeting at the Commercial club yeaterday. Prices consequently remain as usual. The rush is occasioned by the buying of winter stock and provisions by the wholesals merchants, and by the rush of the retail merchants to take advantage of the new stock and present prices.

As predicted last week, grapes are beginning to feel the effects of more stock on the market than formerly. Prices are growing less and the quality is just as good. A carload was received here yesterday, and these today will be selling at from H.15 to \$1.00 per box, a difference of \$2\$ cents from the price of last week. In smaller quantities the change was also noticeable. Tokay grapes, which have heretofore been \$6\$ cents a basket, are today selling at \$6\$ cents. Other California grapes are selling at 16 cents for a pound, or 15 cents for two pounds.

Other fruits have the appearance of growing in quantity and shrinking in price. Today the housewife will be able to buy prune plums at some of the grocery stores at three pounds for 10 cents. This makes it a particularly propitious time to put up the plums for winter use.

Stock Market Letters.

Stock Market Letters.

James A Pollock & Co., stock and grain brokers, 5 West Second South street, make public the following letters on the stock market:

T. A. McIntyre & Co., New York, say: "The sharp upturn in the stock market today was influenced primarily by the engagement late yesterday at London of \$1,230,000 in gold by Lazard Freres & Co. This was purchased in the open market for the arrival of \$2,000,000 at London from South Africa. There is nothing in the present situation which warrants the assumption that the market has started off for any extensive buil movement. It has simply become more of a two-sided traders' market lately."

Marshal Spader & Co., New York, say: "We are inclined to look for a stronger stock market, though activity may be restricted pending the annual return of money from the harvest centres and a better understanding of our financial relations will Europe, growing out of Russian and Japanese requirements. Hutton, New York, says: "The actual engagement, together with reported further shipments of gold to this country, will change the entire situation if said shipments are large enough to off-set the drain on the sub-treasury and interior, but there is a suspicion that shipments made today were for a speculative purpose. If this amount is secured it will certainly work against any money stringency, and would prove a great factor and mean a resumption of a big buil market."

market."
Logan & Bryan, New York, say: "Yesterday's rally in the market was continued all through today's session, the market again scoring a sharp advance all through the list. The market continues highly professional, and acts as it some further advance would be scored."

Scored."

Dick Bros. New York, say: "The market has been decidedly strong today Practically all stocks made material gains as the result of heavy buying for both accounts. Leading professionals resumed operations on the bull side and there was some urgent short covering. Wall street estimates of probable exent of gold imports during the next few weeks ranged from \$15,000,000 to \$20,000,000.
